

The future in our portfolio.
Yesterday. Today. Tomorrow.

Product range and custom solutions

Pioneering
high voltage.

Today, we are finding solutions for tomorrow's energy technology needs – and for the decades to come.

HSP. Pioneer in the high-voltage sector.

As an expert technology partner, we create safe and reliable pathways for electric power worldwide – and sustainable value for our customers. Agility, enthusiasm, and expertise are the core values we bring to life with our products and services. For decades, we have been driving high-quality innovations in high-voltage technology. And we're not slowing down.

Discover our range of classic bushings, innovative technologies and custom solutions.

Focus on customer value

We are aware of the challenges faced by our customers all over the world. That's why, in addition to holistic and classic services, we also offer innovative product and service solutions to meet every need. Outstanding quality, far beyond the industry standard, is a matter of course for us. Just like the safety, durability, and sustainability of our products. Here, you can discover the many benefits of working with HSP.

As committed to our customers as we are to our products.

Core Benefits

The future begins today.

Ready to create opportunities? We are.

Innovation is what drives us. Today, we are finding solutions for tomorrow's energy technology needs – and for the decades to come. Continuously breaking new ground, we play a key role in shaping the energy sector. Courageously and proactively.

For a successful future.

Next generation technology

RIS. Innovative Advancement.

The new paper-free RIS Bushings are the innovative advancement of the established RIP technology. Insulation made of resin-impregnated synthetic fleece eliminates any sensitivity to moisture, setting new standards in practicality and safety.

STAR-SERIES

The **easy configurable** High-Standard

Our STAR-series offers everything you need for high voltages. They are easily implementable, free of partial discharges and require no maintenance. With porcelain and silicone insulators, our transformer bushings impress with **proven designs and high functionality**.

C-SERIES

The **custom solution** for each requirement

Service of the highest quality, products that win you over: HSP is the world's first choice for innovative and classic solutions in the field of energy technology. We are aware of the challenges our global customers face. That's why, in addition to holistic and classic services, we also offer services and **customized product solutions** to meet every need.

STARIP+

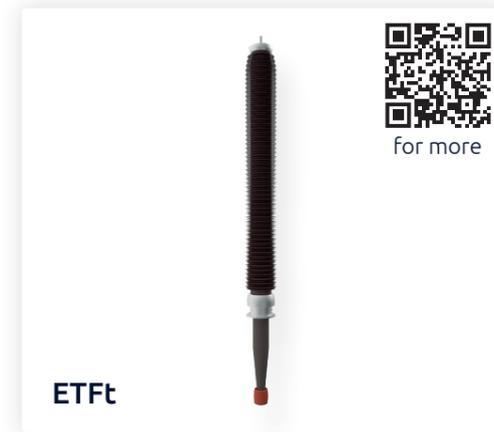

STARIP-Si+

STARIS-Sia+

**Your requirements.
Our solutions.
Fits. Always.**

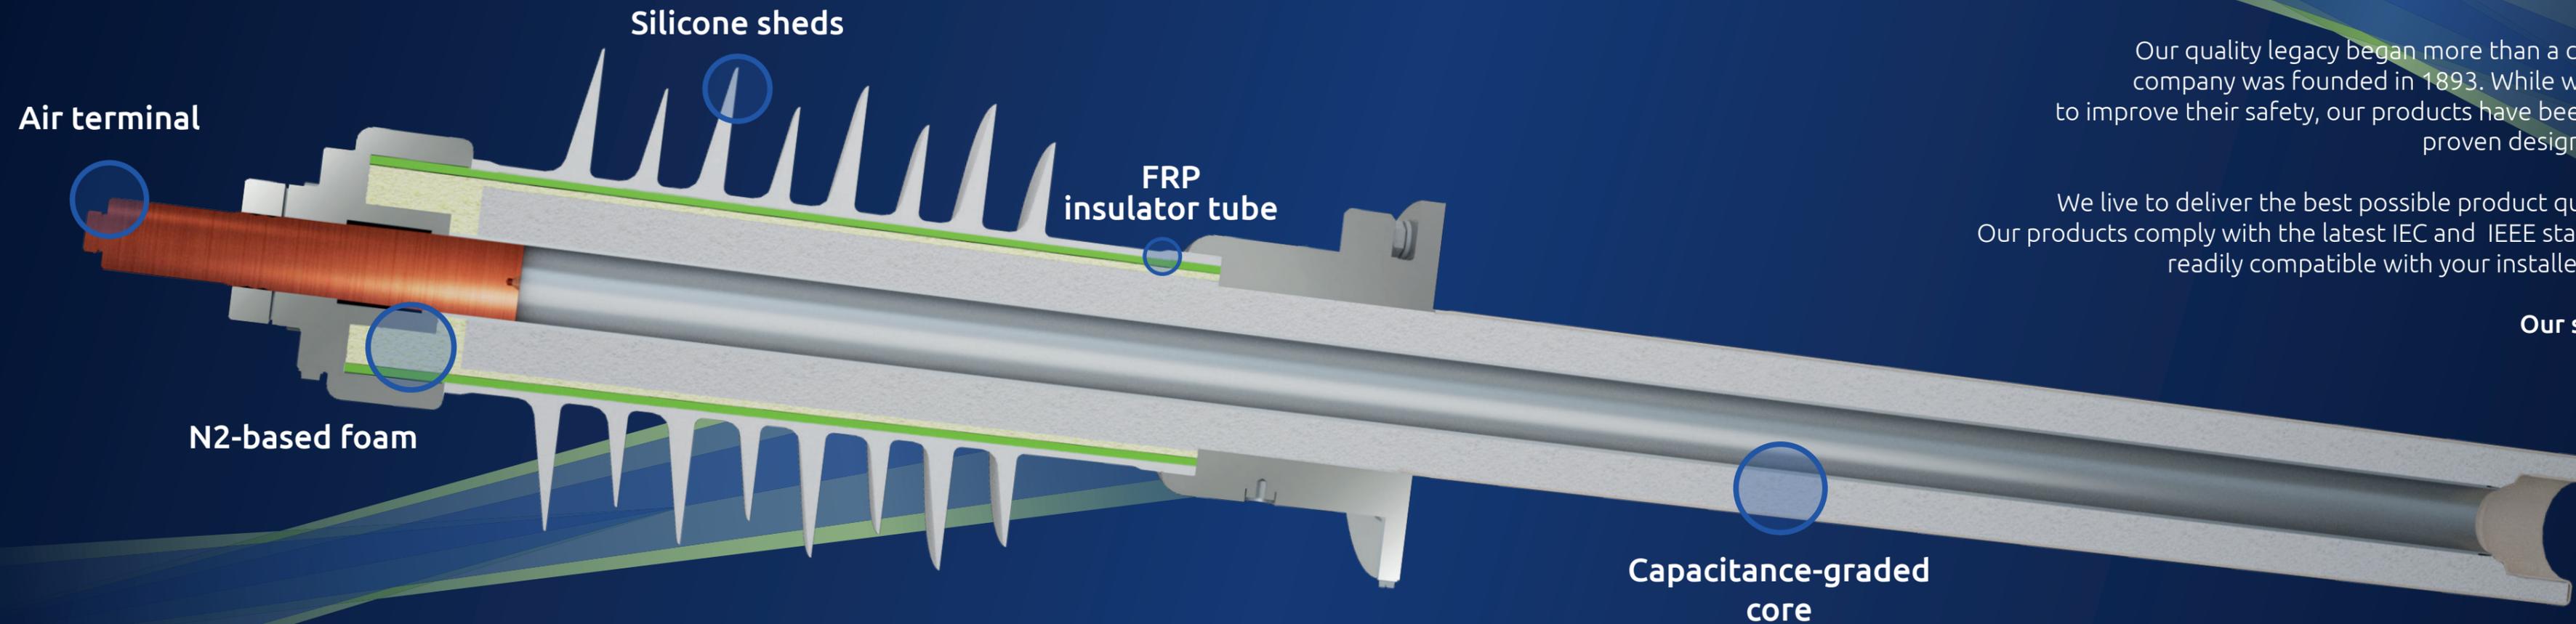

Powerful technology for a wide range of applications

Transformerbushings Wallbushings GIS-Bushings HVDC-Bushings

Let us win you over with our services and products. HSP Hochspannungsgeräte GmbH is the world's first choice for innovative and classic solutions in high voltage technology. That's what we hear in our daily work with satisfied customers and in the positive feedback we receive from our partners. And that's why everything bearing the HSP name must meet the highest quality standards.

Advantages by design

Our quality legacy began more than a century ago when our company was founded in 1893. While we continuously strive to improve their safety, our products have been based on the same proven design criteria for decades.

We live to deliver the best possible product quality to our partners. Our products comply with the latest IEC and IEEE standards. They are also readily compatible with your installed legacy of products.

Our solutions fit, always!

High voltage. Technology. Solutions.

Pioneering
high voltage.
